"I would recommend the experience with ConversaSpain as it was great to have a guaranteed placement and the support before coming to Spain was very helpful. I chose the immersion week option and was very happy. It gave me a good introduction to some of the main sites of Madrid, but more importantly allowed me to meet some other people in our program who I have remained friends with in my time here", Grant H., participant in Madrid.

The Role of a Language and Cultural Ambassador in Spain

Participants could **deliver conversational English lessons to students** or staff, encourage oral practice in English, explain the culture of their own country, help in other subjects (such as science, art, P.E., history, or music), assist with pronunciation and grammar, prepare students for oral exams, and collaborate with teaching staff in creating teaching materials and planning lessons. **The specific activities and tasks depend on the school.**

Language Assistants in Public Schools help **teach English to Elementary, Middle and High School students**. This is a supportive role, thus they aren't in charge of entire classes and aren't responsible for grading or discipline.

Age-group preferences are considered whenever possible (we cannot guarantee specific placement preferences).
